

## The Procurement process is now more fair and transparent

Every action that government personnel make within the new system is tracked, increasing accountability throughout the tendering process.

## Added protection with closed bids and contract award query option

Bids are anonymous until the closing date. This means that no one, not even the Ministry that submitted the opportunity, can see bid amounts and proposals until the bid is closed.

Registered suppliers will be able to see who is awarded contracts and the rationale behind the award.

**Vendors can raise queries through the portal regarding contract awards. All queries will be addressed expeditiously.**

## Fresh, new look & more efficient for users

### Improved, intuitive user interface

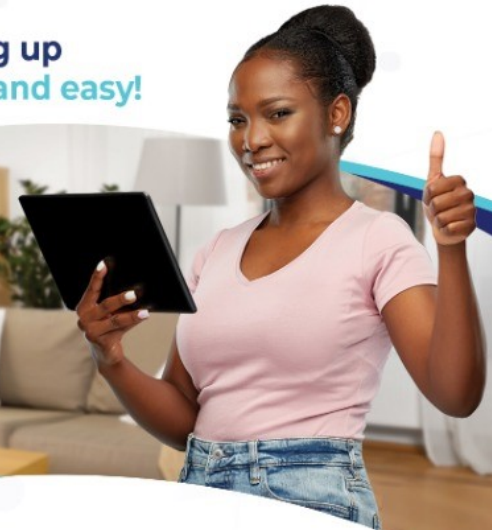

The new portal is easier to navigate and has a bright, fresh look that makes it more user-friendly.

### New Categorized Notification System

Registered suppliers will receive email alerts only when a new opportunity relevant to their area of business is available.

Previously, registered vendors would receive every notification as it was posted on the portal. Now, the more streamlined system will only send notifications to business owners for opportunities that match their selected categories.

## Signing up is fast and easy!

### STEP 1

Visit [mofvendors.gov.bs](http://mofvendors.gov.bs)

### STEP 2

Input your name and email address. The system will then generate an email with a link to enable you to complete the simple registration process.

### STEP 3

Follow the simple prompts and provide the requested information. This takes just 5 minutes. You will need:

- 1 Business NIB number and Business License number
- 2 Digital copy of your Business License
- 3 If you do not have a valid business license, you can still register on the portal, however your vendor registration will be incomplete and you will not be able to actively bid on opportunities.

### STEP 4

Be sure to select the ISIC code relevant to the goods or services you provide.

### STEP 5

That's it! You will now receive notifications every time an opportunity related to your business is available.
